

Key Vocabulary

Password

A secret word, phrase or combination of letters, numbers and symbols that must be used to gain admission to a site or application such as a website.

Username

An identification used by a person with access to a computer, network, or online service.

Internet

A global computer network providing a variety of information and communication facilities, consisting of interconnected networks and computers.

Website

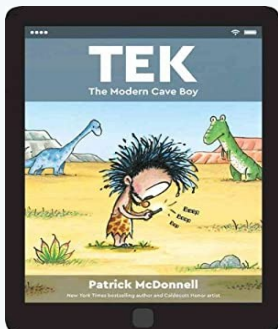

A set of related web pages located under a single name.

Webpage

A page online that makes up one screen of a website.

Blog

A regularly updated website or web page, typically one run by an individual or small group, that is written in an informal or conversational style.

Tek is a cave boy in love with tech: his tablet, video games, phone, and TV keep him deep in his cave, glued to his devices, day in and day out. He never sees his friends or family anymore - and his ability to communicate has devolved to just one word: "UGH"! Can anyone in the village convince Tek to unplug and come outside into the big, beautiful world?

Sticky Knowledge

A password is a secret word or phrase that allows a user to access a website—they should not be shared with anyone else.

Not everything on the internet is reliable or true.

Spoof websites use dishonest designs pretending to be reliable webpages to trick users into thinking that it represents the truth.

Computer games, like films, have a PEGI rating that shows what age a game is suitable for.
