

## DEVELOPING A HEALTHY, SAFER LIFESTYLE

## WHAT HAPPENED DURING COVID-19?

Boris Johnson was the British Prime Minister during the Covid pandemic.

The inquiry into the pandemic response found that the government at the time made poor decisions about dealing with Covid-19.

Inquiry chair, Baroness Hallett, said the former prime minister should have responded more urgently to the crisis.

## HEALTH AND WELL-BEING COVID-19 AND CORONAVIRUS

### STICKY KNOWLEDGE

COVID-19 first started in late 2019.

From March 2020 a series of restrictions started, including several lockdowns, in order to curb the spread.

Vaccines started to be given in late 2020 in the UK. This began the biggest vaccination campaign in NHS history.

During COVID-19 hundreds of thousand of people were hospitalized and died due to COVID symptoms.

The final lockdown was in 2021.

Today most people infected with the virus experience mild to moderate respiratory illness and recover without requiring special treatment. However, some will become seriously ill and require medical attention.
