

# Shape Search

I can identify 3D shapes in different orientations.

Instructions: Identify and colour the 3D shapes according to the key.

| key: | cube                                                                              | cone                                                                              | Cuboid                                                                             | Pyramid                                                                             |
