

Key Knowledge and Understanding

Musical notes are named A, B, C, D, E, F and G. They have no particular start or end - there isn't a 'first' note - but they are always in that order.

In between the notes are accidentals - sharps (#) and flats (b). Just remember that the 'b' symbol means that a note is played a semitone lower, and a '#' means that a note is played a semitone higher.

A **duet** is a piece of music or song that is performed by two people.
