

Key Knowledge and Understanding
Music is a group of sounds that people have arranged in a pleasing or meaningful way. of music.
Music does not always have to be made using instruments. It can be simple—for example, one person tapping out a beat on a log drum or singing a children's song
Music making technology gives everyone the opportunity to make music at home without needing expensive instruments or computers
When composing, like writing, you don't always need to go with your first idea. Composing is all about experimenting and finding out what works and what doesn't. Give yourself time to play and try out lots of different ideas.

Key Vocabulary	Definition
Tempo	The speed of the music
Timbre	The quality of sound, what makes instruments sound different to each other
Texture	The layering of sounds within a composition
Graphic Score	Using pictures or symbols to write down a composition
Rhythm	pattern of long and short sounds as you move through the music

EDM stands for Electronic Dance Music.

The features of this type of music are the layering of sounds, using loops and samples

It can use singing, but mostly it is instrumental
